

REVENGE GLX™

Perennial Ryegrass

Gray Leaf Spot Resistant

Fine Leaf Texture

Dark Genetic Color

Take revenge on gray leaf spot with Revenge GLX, a top-rated NTEP variety for quality and disease.

Revenge GLX was developed for resistance to gray leaf spot and excellent turf quality. Key turf quality indicators, like dark green genetic color, fine leaf texture, and excellent year-round density, combine to create a beautiful, uniform turf for your project. In addition to an extremely attractive turf with excellent disease resistance, Revenge has shown reduced winter kill and good cold tolerance in the northern United States.

Key features

- Excellent tolerance to gray leaf spot
- Dark genetic color
- Year-round density to crowd out weeds
- Excellent spring green-up
- Good cold tolerance

GLX®: GRAY LEAF SPOT RESISTANT

Maintenance

Seeding Rate: 5-8lbs./M*
 Overseeding Rate (Warm): 10-15lbs./M *
 Mowing (Recommendation): 1.5-2.5"
 Mowing (Down to): 0.44"

*M=1,000 square feet

Technical Information

Applications

Revenge GLX is adaptable to mowing heights as low as 0.44 in. and as high as 2.5 in. (6.35 cm). When managed under high maintenance conditions, Revenge GLX performs best at mowing heights of 0.5-0.75 in. mowing heights. Revenge GLX is an excellent variety for professional applications on golf courses and sports fields, but also provides a beautiful, disease resistant turf for home lawns and parks.
